

DORSET SOLDIERS CASTINGS

PAINTED FIGURE collectors might like to know that painted figures and sets can also be produced from the castings lists.

ABOUT DORSET SOLDIERS

- ❖ Dorset Soldier castings are approximately 54mm tall and cast in white metal. Please ask the exact height if you want figures to fit in with other soldiers in your collection.
- ❖ Castings are supplied straight from the mould and will need flash cleaning with a knife and file before painting. I can quote to clean and assemble figures for you, if you prefer this.
- ❖ As many of the figures are made to collectors' own specifications, the style of figures varies from slight, traditional toys in the old 'Britains' format to detailed, chunky, near-models. I have tried to reflect this in the descriptions. Please contact me if you have an idea you wish to explore.
- ❖ Spare parts are available to repair broken old soldiers or convert figures in the lists.
- ❖ I can quote to repair your broken old soldiers.
- ❖ Painted figures can be produced from any figure in the lists or designed for you.
- ❖ Due to the lead content in the figures I do not supply figures to children under 14 years old.
- ❖ You may see figures reviewed in the modelling press which do not yet appear in the catalogue. Updates do not always keep up with production of new items. Please contact me for details if you want to know more about them.

CONTACTING DORSET MODEL SOLDIERS: By phone: 01483 855757 . I am always pleased to hear from you and offer any help I can. If I am not immediately available, then please leave a message on the answering machine and I will get back to you.

By email: sales@dorsetmodelsoldiers.com. Please send credit card details split into two emails or I can send you a secure credit card link for payment.

ORDERING YOUR FIGURES - please read these notes or the rest of the catalogue will not make sense.

- ❖ Figures are complete, traditional toy style unless otherwise stated.
- ❖ Please tell me if you would like any of the figures beheaded and drilled to take a different head. These extra parts are **not** included in the price of the figure.
- ❖ Where a figure is not complete (see abbreviations below) spare parts are in the J, K or WBC lists unless the figure description says otherwise.

Casting List P

The Thoroughbred Collection

All horses in this list up to P54, excluding P48 are two part kits, divided across the saddle. The fronts and rears of most of these horses are compatible, to create various movements from the halt to the gallop. All horses have a saddle with rolled cloak on front, unless designed for a specific rider where this would be inappropriate. Swords in scabbards (K51) and carbines in buckets (K52) should be purchased and attached separately where required. **Please ask for holes to be drilled.**

The separate riders and ancillary figures are more detailed than the rest of the Dorset Castings range, with frogging, crossbelts etc moulded in and are used with Thoroughbred horses as the basis for our painted cavalry and horse-drawn sets.

All horses on this List up to P54 are Price code f. All other figures are Price code b, unless otherwise stated. Arms and heads etc, where required, can be chosen from the J & K Lists.
